SUMMARY

Full stack developer with a background in web content management and customer service educated at the University of Richmond. Developed skills in HTML, CSS, JavaScript, jQuery, Node.js and responsive web design. Strengths in being a self-starter, customer relations, and teamwork. Passionate about designing websites that engage audiences for an impactful user experience. Excited to bring my attention to detail and technical skills to an organization and become a valuable asset.

TECHNICAL SKILLS

Languages: HTML5, CSS, JavaScript, Node.js, Bootstrap,

Applications: GitHub

Tools: Bootstrap, Bulma, Query, Adobe (Photoshop, InDesign, Spark)

PROJECTS

Password Generator | Deployed Project: https://vpatt1031.github.io/password_generator/

- Summary: This application was created to generate a random password based on criteria inputted by the user. This application would benefit any company or organization that needed to create unique user passwords to protect information.
- Role: Sole author
- Tools: HTML5, CSS, JavaScript

Movie Roulette | Deployed Project: https://vpatt1031.github.io/movie_roulette/

- Summary: For this project, we have created an online app using multiple APIs that finds upcoming holidays, and then displays movies related to that holiday when clicked on. We wanted the user to have an easily accessible app that cuts down on time searching for holiday movies, so they can spend more time watching holiday classics.
- Role: Front end developer
- Tools: HTML5, CSS, Bulma, JavaScript, JQuery, APIs

EXPERIENCE

Middle School Assistant

2020 – present

Charlotte Preparatory School

Charlotte, NC

Manage/update school files and records, create reports, issue transcripts. Assist head of school with school wide communications as needed.

Key Accomplishments:

- Create weekly middle school newsletter implementing graphic design elements and distribute to school community using web marketing software Constant Contact
- Troubleshoot technical issues for staff and students working remotely

Administrative Officer/Database Manager

2015 – 2019

Westminster School

Annandale, Va

Managed the student learning information software and learning management software for staff, students, and families. Assisted several departments, Administration, Admissions, Business/Marketing,

and Maintenance, with various projects as needed such as scheduling, event planning, collections, and distributing correspondence.

Key Accomplishments:

- Managed and updated web content on school's website using WordPress
- Updated paper process for re-enrollment by creating an online form for families to register and pay, school saw an 80% increase in re-enrollments by target date first year implemented.
- Designed fliers, brochures, invitations, programs, and various digital media using Adobe Creative Cloud
- Taught technology classes to students in grades 5-7
